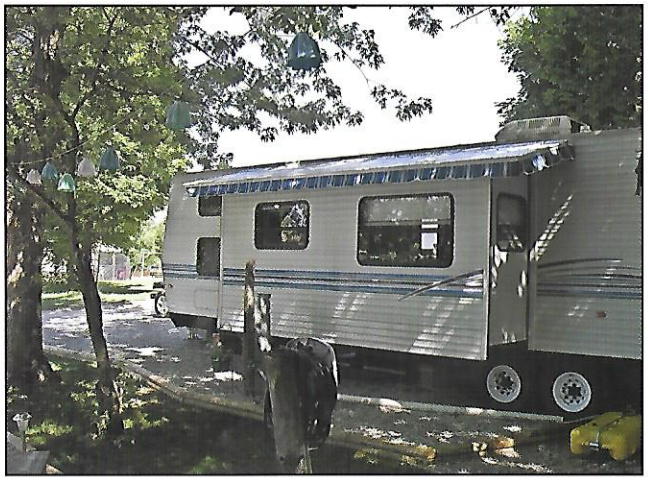
Dura-Fold
Portable RV Awning

Dura-Fold Awning with Valance

The Dura-Fold Awning is a 1" thick insulated aluminum roof that gives you much more protection than a canvas awning. You won't need to adjust or retract it during a storm.

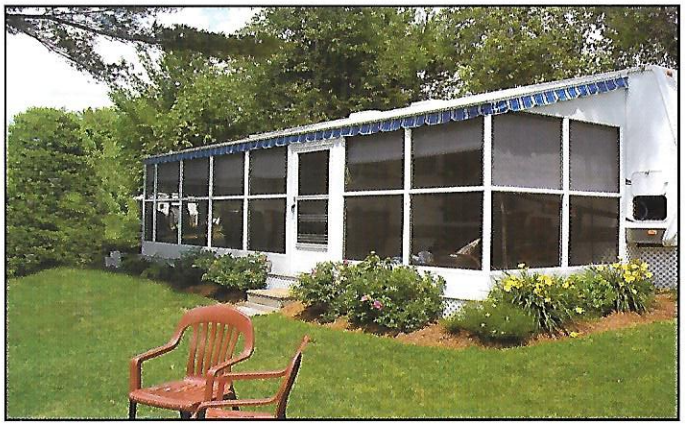
The Deluxe Dura-Fold Awning is a 3" thick insulated aluminum roof.

In the off-season, simply let the awning swing down. The awning can be locked to your RV for added winter protection.



Dura-Fold Slide Out Cover With Valance

Dura-Breeze
Portable Screen Room



The Dura-Breeze Portable Screen Room is good looking, yet tough enough for the RV life.

The fiberglass screens are mounted in rigid aluminum frames, designed to fit the Dura-Fold Portable RV Awning perfectly. The screen panels are 48" wide. The door is pre-hung and is a full 36" wide.

With the Dura-Breeze Room you have the choice of having the entire room under the awning or leaving an open area under the awning for your barbeque.
